

Shiva Srivastava

shivasap27@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

EDUCATION

Sharda University
Bachelor of Technology in Computer Science
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Technologies, Database Systems

Greater Noida, India
Sep 2022 – Jul 2026 (Expected)

EXPERIENCE

Full Stack Developer Intern
Next.js, React, Node.js, MongoDB

WooStudios
Sep 2025 – Dec 2025

- Developed and maintained full-stack web applications using Next.js and React for client projects
- Built RESTful APIs with Node.js and integrated MongoDB for efficient data management
- Collaborated with design and development teams to implement responsive UI/UX features
- Participated in code reviews and agile development workflows to deliver high-quality solutions

Front End Developer Intern
HTML, CSS, JavaScript, React

M2Cloud LLP
Dec 2023 – Jan 2024

- Developed responsive web interfaces using HTML5, CSS3, and JavaScript for client-facing applications
- Implemented React components following best practices for reusable and maintainable code
- Worked closely with backend teams to integrate APIs and ensure seamless data flow
- Optimized web pages for performance and cross-browser compatibility

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, HTML5, CSS3
Frameworks & Libraries: Next.js, React, Node.js, Tailwind CSS, Bootstrap
Tools & Technologies: Git/GitHub, MongoDB, Docker, Vercel, REST APIs, Responsive Design
Concepts: Full-Stack Development, Authentication Systems, Database Design, Agile Development

PROJECTS

Inviofy – Professional Invoice Generator
Next.js, TypeScript, React, Tailwind CSS, Docker

[GitHub](#) — [Live Demo](#)
Oct 2024 – Present

- Architected and deployed production-ready invoice generation SaaS serving real users on Vercel with 99% uptime
- Built dynamic PDF generation with custom templates, real-time preview, and multi-format export (JSON, CSV)
- Designed responsive UI with Tailwind CSS and custom React hooks for efficient state management
- Implemented Docker containerization for scalable production infrastructure and consistent deployment
- Engineered browser-based data persistence and email integration for automated invoice distribution
- Optimized application performance achieving sub-2s load times and seamless user experience

Whispers Within – Anonymous Messaging Platform
Next.js, TypeScript, MongoDB, Tailwind CSS, Resend API

[GitHub](#) — [Live Demo](#)
Dec 2024 – Present

- Developed full-stack anonymous messaging platform with end-to-end privacy and secure data handling
- Implemented user authentication and session management using Next.js App Router and server-side rendering
- Designed MongoDB database schema with optimized indexing and compound queries for efficient retrieval
- Integrated Resend API for automated email notifications with customizable templates
- Built fully responsive UI with mobile-first approach achieving seamless cross-device experience

ADDITIONAL INFORMATION

Technical Interests: Full-stack development, scalable web architectures, database optimization, DevOps practices
Problem Solving: Active on LeetCode, regularly solving data structures and algorithms challenges
Languages: English (Fluent), Hindi (Native)

KEY ACHIEVEMENTS

- Solved 450+ LeetCode problems (136 Easy, 275 Medium, 76 Hard) with contest rating of 1641, ranking in top 18% globally
- Deployed 2 production applications with 99%+ uptime serving real users on cloud infrastructure
- Self-taught modern web development stack (Next.js, TypeScript, Docker) through hands-on project building
- Gained 6 months of professional development experience across 2 companies during academic career
